

Eagle Syndrome Consultation Handout

Thank you for your interest in a consultation with Dr. Hussein Samji to determine your diagnosis, treatment or surgical candidacy for Eagle syndrome. Before we can schedule a consultation, you must provide us with the required information listed below. Please note that there is a two-week processing period for all requests.

What Is Eagle Syndrome?

Eagle syndrome occurs due to an elongation of the styloid process, sometimes with calcification of the stylohyoid ligament. This condition is rare and often misdiagnosed, leading to treatments that worsen rather than fix it. Treatments include therapy, medications and surgery.

What Is the Cost of the Consultation?

Since no insurance plans cover the consultation fee, the patient has to pay this fee out of pocket. Once we have received all documentation and you are approved, the consultation fee is \$500. No exceptions will be made.

Please Provide the Following Required Documentation:

- A **CT scan** (head and neck without contrast) showing the measurement of the styloid and the corresponding **radiology report** must be provided. We will not accept any other types of scans. We can only accept official records and hard copy imaging disks. We will not accept any screenshots, links or drawings. Please request a copy of this scan and report from your primary provider. Our office is unable to order these for you.
- A brief **summary of your symptoms or medical records**. If you plan to send your medical records, please do not include records that are older than 12 months.
- We have attached several forms for you to complete and send back to Camino ENT, along with copies of your **driver's license or state ID card** and front/back copies of your **insurance card**.
(Note that you can also find these forms on our website at www.caminoent.com/throat/eagle-syndrome.)
 - [Patient Intake Packet](#)
 - [Summary of Financial Policies](#)
 - [Notice of Privacy Practices \(HIPAA\)](#)
- Mail** the report, scans, forms and documents to the following address:
Camino ENT
6060 Hellyer Ave., Suite150
San Jose, CA 95138

Please note that we cannot begin the reviewing process until we have received ALL documents and scans.

If you have any questions, please contact Veronica Walker at (408) 227-6300 or veronica@caminoent.com.

We look forward to working with you.
